

Security Guard 24/7 24,700,000* Stun Gun (SWSG247B) Instructions

1. Contact Probes
2. LED Flashlight
3. Stun ON/OFF Switch
4. Stun Activation Button
5. Charging Port
6. Charging Indicator Light
7. Stun Warning Light
8. Function Switch

RECHARGING

1. The rechargeable batteries are already installed. Please do not attempt to open the unit, as this will damage the unit and void the warranty.
2. We recommend charging the Security Guard 24/7 before it is used. Simply plug the charging cord into the bottom of the unit (5) and the other end into a standard outlet. The Charging Indicator Light (6) on the bottom of the unit will illuminate while the charging cord is plugged in. Simply charge for 8 hours then unplug it from the charging cord.

IMPORTANT: do not charge for more than 8 hours at a time. Overcharging can damage the unit and void the warranty. When used infrequently the unit will need to be recharged for 8 hours every 60 days. If the flashlight is not as bright or if the electrical current becomes noticeably weaker, the unit will need to be recharged.

USING THE FLASHLIGHT

Note: The flashlight will work with the Stun ON/OFF Switch (3) in either the ON or OFF position. If you are in a situation where you might need to quickly activate the stun gun (like walking at night) we recommend you keep the switch in the ON position. If you don't anticipate needing the stun gun (at home during a power outage) we recommend the OFF position.

1. Slide the Function Switch (8) up to the middle position.
2. The flashlight will come on either: the Hi, Low, or Strobe Mode setting.
3. If you want to change to another light mode move the switch down to the bottom position, then back up to the middle position.

TESTING THE STUN GUN

We recommend test firing the stun gun and becoming familiar with its operation before you need to use it to defend yourself. (**WARNING:** Do not test fire the stun gun for more than 1 second as this will damage the unit and void the warranty.)

1. Slide the Stun ON/OFF Switch (3), located on the bottom of the unit, to the ON position.
2. Slide the Function Switch (8) up to the top position.
3. The Stun Warning Light (7) will turn on.
4. Press the Stun Activation Button (4) to test fire the unit. Do not hold down the button for more than 1 second. You will see and hear a charge fire across the top of the unit between the Contact Probes (1).

5. **IMPORTANT:** Slide the Stun On/Off Switch (3) on the bottom of the unit to the OFF position when you have finished test firing.

USING THE STUN GUN IN SELF DEFENSE

1. With the Stun On/Off Switch (3) (located on the bottom of the unit) in the ON position touch your assailant's body with the Contact Probes (1) and press the Stun Activation Button (4).
2. Touching anywhere on the assailant's body will have an effect. However, the maximum effect is achieved in the areas to the right:
3. When touching the assailant's body, you will not see or hear the electrical charge as you do when the unit is test fired. You can hold down the Stun Activation Button (4) for more than 1 second, as this will not damage the unit, as it will when being test fired.
4. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

EFFECTS OF THE UNIT ON AN ASSAILANT

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun gun can cause no permanent harm. (**NOTE:** *The device should not be used for longer than 5 seconds.*)

WARRANTY

Cutting Edge Products, Inc. extends a lifetime warranty to the **SWSG247B** for the product against defects in materials or workmanship, with the following exceptions:

1. The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture or water damage, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.
2. The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.

NOTICE

Purchaser must check and abide by all local laws governing the possession and use of stun guns. In addition, the stun gun must only be used in a lawful manner for self-defense. NOTE: Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extreme hot or cold temperatures. Do not use on metal objects.

CONDITIONS OF SALE

Purchase of this product is an agreement by the purchaser/user to hold all sellers and manufacturers harmless of all liabilities and damages.

TO OBTAIN SERVICE

Contact the Authorized Dealer from whom you purchased this unit for a Return Merchandise Authorization. The return unit must be sent postage prepaid and proof of purchase is required. Damage or loss occurring during shipment is not covered by this warranty.
